Susan Panny is Board certified in both Pediatrics and Medical Genetics. She is the Children with Special Health Care Needs director at the Maryland Department of Health and Mental Hygiene. She has been the director of the state sponsored genetics program in Maryland for 25 years. In 2000, the rest of the programs for Children with Special Health Care Needs joined her unit to form the Office for Genetics and Children with Special Health Care Needs (OGCSHCN). Dr. Panny's responsibilities include heelstick newborn screening, infant hearing screening, birth defects, metabolic diseases, sickle cell disease, hemophilia, genetics, specialty care, regional resource development for children with special health care needs, medical day care and CMS (Children's Medical services-Maryland's fee for service program for low income children with special health care needs).
