

## Application Requirements

	Statement	Resumé	TOEFL*	Test Score	Transcripts	Letters of Recommendation
<b>Biochemistry and Molecular Biology (BMB)</b>						
Master's	required	required	250/100	GRE or MCAT	required from all universities attended	three required
Doctoral	required	required	250/100	GRE	required from all universities attended	three required
Special Student Regular	required	required	250/100	not required	required from all universities attended	three required
Postdoctoral Fellowship	not required	required	not required	not required	proof required for doctoral degrees only	one required
<b>Biostatistics (BIO)</b>						
Master's and Doctoral	required	required	213/80	GRE	required from all universities attended	three required
Special Student Regular	required	required	213/80	not required	required from all universities attended	three required
Postdoctoral Fellowship	required	required	not required	not required	proof required for doctoral degrees only	one required
<b>Environmental Health Sciences (EHS)</b>						
Master's	required	required	250/100	GRE or MCAT	required from all universities attended	three required
BA/MHS	required	required	250/100	GRE or MCAT (waivers considered)	required from all universities attended	three required
Doctoral	required	required	250/100	GRE or MCAT	required from all universities attended	three required
Special Student Regular	required	required	250/100	not required	required from all universities attended	three required
Postdoctoral Fellowship	required	required	not required	not required	proof required for doctoral degrees only	not required
<b>Epidemiology (EPI)</b>						
Master's	required	required	250/100	GRE or MCAT	required from all universities attended	three required with completed form
Doctoral	required	required	250/100	GRE	required from all universities attended	three required with completed form
Special Student Regular	required	required	250/100	GRE	required from all universities attended	three required with completed form
Postdoctoral Fellowship	required	required	250/100	not required	required from doctoral degree granting institution	three required with completed form
<b>Graduate Training Program in Clinical Investigation (GTPCI)**</b>						
Master's	required	required	250/100	GRE or MCAT recommended	required from all universities attended	two required
Doctoral	required	required	250/100	USMLE required	required from all universities attended	two required (one must show funding)
<b>Health, Behavior and Society (HBS)</b>						
Master's	required	required	250/100	GRE	required from all universities attended	three required
Doctoral	required	required	250/100	GRE	required from all universities attended	three required
Special Student Regular	required	required	250/100	GRE	required from all universities attended	three required
Postdoctoral Fellowship	required	required	case-by-case basis	not required	proof required for doctoral degrees only	three required
<b>Health Policy and Management (HPM)</b>						
Master's – Health Finance and Management	required	required	250/100	GRE or GMAT	required from all universities attended	three required
Master's – Health Policy	required	required	250/100	GRE	required from all universities attended	three required
Doctoral – DrPH	required	required	250/100	GRE or GMAT	required from all universities attended	three required
Doctoral – PhD	required	required	250/100	GRE	required from all universities attended	three required
Special Student Regular	required	required	250/100	not required	required from all universities attended	one required, three preferred
Postdoctoral Fellowship	required	required	not required	not required	proof required for doctoral degrees only	department mentor letter required
<b>International Health (IH)</b>						
Master's	required	required	250/100	GRE or MCAT	required from all universities attended	three required
Doctoral	required	required	250/100	GRE	required from all universities attended	three required
Special Student Regular	required	required	250/100	GRE or MCAT	required from all universities attended	three required
Postdoctoral Fellowship	not required	required	not required	not required	proof required for doctoral degrees only	not required
<b>Mental Health (MH)</b>						
Master's and Doctoral	required	required	250/100	GRE, MCAT or GMAT	required from all universities attended	three required
Special Student Regular	required	required	250/100	GRE, MCAT or GMAT	required from all universities attended	three required
Postdoctoral Fellowship	required	required	not required	not required	required from all universities attended	three required
<b>Molecular Microbiology and Immunology (MMI)</b>						
Master's	required	required	250/100	GRE or MCAT	required from all universities attended	three required
Doctoral	required	required	250/100	GRE	required from all universities attended	three required
Special Student Regular	required	required	250/100	not required, but GRE strongly recommended	required from all universities attended	three required
Postdoctoral Fellowship	not required	required	not required	not required	proof required for doctoral degrees only	two required
<b>Population, Family and Reproductive Health (PFRH)</b>						
Master's and Doctoral	required	required	250/100	GRE strongly preferred (MCAT accepted some cases)	required from all universities attended	three required
Special Student Regular	required	required	250/100	required	required from all universities attended	three required
Postdoctoral Fellowship	required	required	not required	not required	proof required for doctoral degrees only	two required
<b>MPH Program</b>						
All Programs (Must have a minimum 2 years of full-time post-baccalaureate health-related work experience)	required	required	250/100	standardized test score appropriate to previous degree	required from all universities attended	three required
<b>Residency Programs</b>						
Occ. Med. and Gen. Prev. Med. Residency	required	required	250/100	USMLE Steps 1 & 2 required, GRE not required	required from all universities attended	three required, plus dean's letter

\* TOEFL score minimums listed are computer-based test and Internet-based test, respectively.
