

COMMUNITY HOSPICES

*Maryland Community Hospice, Virginia Community Hospice
and Hospice of Washington*

Community Hospices is the
Hospice Affiliate for Johns
Hopkins Medicine

The Greatest Gift of All

Your Time as a Hospice Volunteer

Hospice volunteers provide patients and families with the assurance that they are not alone. Trained volunteers work as part of a holistic care team and provide hospice patients and families with:

Companionship

Respite for Caregivers

Assistance with personal errands

A caring and helping hand...

Maryland Community Hospice provides comprehensive training for volunteers looking to make a difference. Volunteers work with hospice patients and families in the home setting and in long-term care facilities. 20 hours of training on Tuesday evenings and Saturdays will be offered starting April 14, 2004 at our offices in White Marsh. Volunteering in patients' homes is available near the Johns Hopkins campuses.
