

Mt. Washington Pediatric Hospital, Inc.

About Mt. Washington Pediatric Hospital

Mt. Washington Pediatric Hospital has been a part of children's health care in Baltimore for over 79 years. Today, our modern facility offers inpatient and outpatient care for infants and children with rehabilitation and special medical needs.

Inpatient Programs

Our inpatient programs offer a wide range of services for infants and children, including medical management of premature infants, treatment of children with respiratory diseases and other chronic conditions, and physical rehabilitation after illness, injury, or surgery.

Small Infant Program helps low birth weight babies successfully make the transition from neonatal intensive care to home.

Pulmonary Rehabilitation Program includes ventilator management and weaning, and parent education for children with chronic respiratory diseases.

Physical Rehabilitation Program helps children recover from traumatic injuries or surgery to the brain or spinal cord, and following major surgery including limb-lengthening, hemispherectomy and other orthopedic surgeries.

Pediatric Chronic Illness Program offers treatment for diabetes, HIV, drug withdrawal, severe feeding disorders, seizures, and other chronic conditions.

Neuropsychology Programs offers unique specialty services for neurological disorders and their effect on the way a child thinks, behaves, and learns.

For more information about Mt. Washington's inpatient programs, please call (410) 578-2600.
