

DEPARTMENT OF BIostatISTICS

The Department of Biostatistics at the Johns Hopkins Bloomberg School of Public Health is seeking an outstanding applicant to join our tenure track faculty. Rank of appointment will be commensurate with experience. New PhDs and recent postdoctoral fellows are encouraged to apply. Candidates should have a PhD or equivalent in statistics, biostatistics, or a comparable field. Women and under-represented minority candidates are particularly encouraged to apply.

The Hopkins Department of Biostatistics, founded in 1918, was the first degree-granting department of statistical science in the US and has ranked among the best throughout its history. The Johns Hopkins Health Institutions (Schools of Public Health, Medicine, and Nursing, and the Johns Hopkins Hospital) are among the top worldwide and provide a research environment in which energetic faculty can achieve scientific excellence. Today, the Department comprises 21 tenure track faculty members, 17 research track faculty members, 13 postdoctoral fellows, 50 PhD students, 14 full-time master degree students, and 12 students pursuing joint master degrees together with doctorates in other departments. Emphases of the department address a diverse variety of public health and medical specialty areas and stages of the lifespan: they include statistical inference and methods, massive and real-time measurement, data science, educational innovation, and subject-area content for genomics, population health, environmental health, and behavioral health. For detailed information, please visit www.biostat.jhsph.edu.

TO APPLY

Email cover letter, CV, letters from three references, a statement of research interests and goals, a teaching statement, and two manuscripts or articles representing your most important work to: Faculty Search Committee at margo@jhu.edu. Interviews commence in mid-December and continue into early winter.

The Johns Hopkins University is an affirmative action/equal opportunity employer.
