

Special Opportunity for JHU Public Health Undergraduates

Bachelor of Arts/Master of Health Science ^{or} Bachelor of Arts/Master of Science in Public Health

The Opportunity

The Johns Hopkins University Krieger School of Arts and Sciences, in conjunction with the Johns Hopkins Bloomberg School of Public Health's (JHSPH) Department of Environmental Health Sciences (EHS), offers a major in Public Health Studies for undergraduates interested in careers in public health.

The major is tailored to prepare individuals for careers that have a basic science foundation, including medicine, and prepares students for careers oriented to health policy, management systems (domestic and international), social and behavioral sciences, and the quantitative sciences fundamental to public health. As part of this unique opportunity, the EHS Bachelor of Arts/Master of Health Science (BA/MHS) or Master of Science in Public Health (BA/MSPH) program offers:

- Early graduate school admission to JHU undergraduates majoring in Public Health Studies. This program leads to either an *MHS in Environmental Health (academic program)*, or *MSPH in Occupational & Environmental Hygiene (professional program)*
- Credit earned for graduate courses taken at the JHSPH while in this program apply toward the BA and one-half of these credits (up to 16 credits) may also be used to fulfill Master's degree requirements
- Co-advising from both Schools
- Peer mentorship by current EHS students previously in this program
- Waiver of the application fee
- Waiver of standardized test scores*

Johns Hopkins undergraduate Public Health Studies majors are also welcome to apply to the Master's program during their senior year; however, the credit requirements will be the same as for other students entering the program from outside of Hopkins.

Career Opportunities in Environmental Health Sciences

- Medical School
- Doctoral programs
- Manager of local, state, or federal agencies (*public health, environmental*)
- Project director with non-governmental organizations
- Owner/senior staff in private environmental consulting firms
- Industrial hygienist/occupational safety consultant
- Research and/or teaching position with academic institutions
- Policy director/analyst for scientific organizations

General Admission Requirements

- JHU Public Health Studies major
- Personal statement of professional and/or research goals
- Undergraduate Grade Point Average (GPA) - minimum 3.0 recommended but not required
- Letters of recommendation
- Interviews are not required, but may be requested
- Admitted students must complete the BA degree before formally matriculating into the Master's program

The deadline for applications is **July 1**

* *Standardized test scores are not required for application to the BA/MHS or BA/MSPH program. A waiver of the requirement of these scores for matriculation into the Master's program will be granted to students who achieve a GPA of 3.0 or better in Public Health coursework taken during their senior year.*
