KNOWLEDGE MANAGEMENT FOR EFFECTIVE GLOBAL HEALTH PROGRAMS

Health, Behavior and Society Summer Institute

June 17-19, 2019

Global health programs operate with scarce resources and high stakes, making coordination among partners and donors critical. Knowledge management provides solutions to these challenges.

This summer institute course will:

• Introduce knowledge management, organizational learning and adaptive management
• Explore their applicability to the design and implementation of global health efforts, including through case studies
• Emphasize culture and leadership as drivers for program success

Instructors: Tara Sullivan, Piers Bocock

Class times: 8:30am - 4:20pm

The Health, Behavior and Society Summer Institute offers courses on a range of public health topics in an intensive, condensed format.

Hopkins employees may qualify for tuition remission benefits.
