

ANGOLA

28,784 deaths
from pneumonia and diarrhea
in children under 5, equating to
22 / 1000 live births

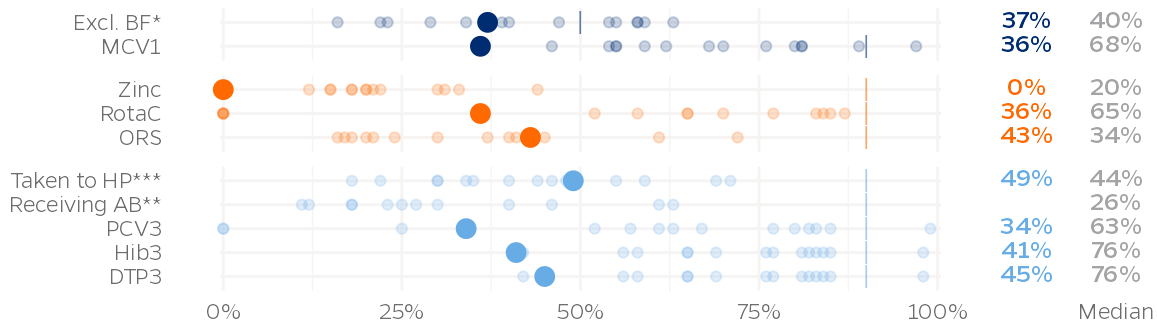

GAPPD Scores

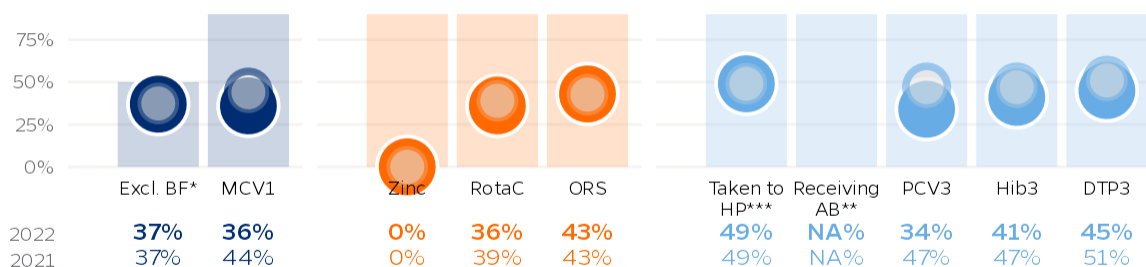

Angola experienced sharp declines across immunization coverage indicators, with PCV3 declining the most dramatically by 19% in one year.

Breakdown by Indicator

Here we show the country's performance on each indicator against the targets (the vertical lines). The other 14 countries in this year's global report are shown as smaller faded dots. The columns on the right provide the score for this country and the median score across all 15 countries.

Below, the GAPPD targets are represented by the height of the faded bars. The solid dots indicate the percentage coverage achieved by the country this year; the faded dots are last year's measurements.

* Exclusively Breastfed; ** Receiving Antibiotics; *** Taken to Health Provider
