Welcome!

Welcome to the 31st Annual Public Health Career Fair, sponsored by the Career Services Office at the Johns Hopkins Bloomberg School of Public Health.

This handbook has been prepared to assist you in learning about the diverse number of organizations represented at the 2015 Public Health Career Fair. Keep this handbook as a reference guide to utilize throughout the year.

We recommend that you:

- Read each profile to receive a brief overview of an organization’s background, products and services
- Keep your mind open to a variety of opportunities
- Introduce yourself to representatives, shake hands, and thank the representatives for coming to the Career Fair
- Obtain a business card from agency representatives you may want to contact at a later date
- If the division of an organization at the Public Health Career Fair is not the area in which you are interested, talk with the representative and ask for a contact name or referral
- Give each recruiter a copy of your resume, and/or business card
- Be enthusiastic and GOOD LUCK!

Remember to stop by the Career Services Office throughout the year for assistance with job search strategies and career plans. You may also visit us online at www.jhsph.edu/careers.
Abt Associates is a mission-driven, global leader in research and program implementation in the fields of health, social and environmental policy, and international development. Known for its rigorous approach to solving complex challenges, Abt Associates was ranked as one of the top 20 global research firms in 2012 and also named one of the top 40 international development innovators. The company has multiple offices in the U.S. and program offices in nearly 40 countries.

Citizenship requirements: U.S. Citizens

Without passion and purpose, a job is just work.

For over 50 years, Abt Associates has helped drive significant improvements in federal programs addressing priority public health issues including HIV/AIDS and other infectious diseases, nutrition and obesity, chronic diseases, and women’s and children’s health.

It’s more than a job. It’s our passion.

American Institutes for Research

Alison Huang, Research Associate (JHSPH Alumna)
Christopher Pugliese, Research Associate
1000 Thomas Jefferson Street NW
Washington, DC 20007
www.air.org

American Institutes for Research (AIR) is one of the world’s largest behavioral and social science research and evaluation organizations. Our overriding goal is to use the best science available to bring the most effective ideas and approaches to enhancing everyday life. For us, making the world a better place is not wishful thinking. It is the goal that drives us.

Founded in 1946 as a not-for-profit organization, we conduct our work with strict independence, objectivity and non-partisanship.

The intellectual diversity of our 1,600 employees enables us to bring together experts from many fields in the search for innovative answers to any challenge.

American Legacy Foundation

Susan Gamboa, Human Resources Coordinator
Ollie Ganz, Research Associate (JHSPH Alumna)
1724 Massachusetts Avenue, NW
Washington, DC 20036
www.legacyforhealth.org

Tobacco use is the leading cause of preventable death in this country; reducing its prevalence provides an unprecedented opportunity to save lives and to save money. We believe this reduction can be achieved through the intersection of strategic vision, subject matter expertise, collaboration and creativity, and our work puts this belief into practice every day.

Widely recognized as a leader in public health, Legacy uses innovative approaches to reduce tobacco use through public education (i.e. truth advertising campaigns), research, and community engagement. Because the vast majority of lifetime tobacco use starts at a young age, we focus our outreach efforts on youth and young adults.

Catholic Relief Services
Valerie Barksdale, Talent Acquisition Specialist
Anna Cowell, Talent Acquisition Specialist
228 W. Lexington Street
Baltimore, MD 21136
www.crs.org

Catholic Relief Services (CRS) carries out the commitment of the Bishops of the U.S. to assist the poor and vulnerable overseas. We foster charity and justice, and embody Catholic social and moral teaching as we act to: 1) promote human development by responding to major emergencies, fighting disease and poverty, and nurturing peaceful and just societies; and, 2) serve Catholics in the U.S. as they live their faith in solidarity with their brothers and sisters around the world. As part of the universal mission of the Catholic Church, we work with local, national and international Catholic institutions and structures, as well as other organizations, to assist people on the basis of need, not creed, race or nationality.

Center for Medical Technology Policy
Jennifer Al Naber, Program Manager GPC (JHSPH Alumna)
Ty Williams, Manager, HR & Administration
401 E. Pratt Street, Suite 631
Baltimore, MD 21202
www.cmtpnet.org

The Center for Medical Technology Policy (CMTP) is an independent nonprofit dedicated to developing a health care system where everyone has the evidence they need to make informed health decisions. We believe that improvements in the quality and relevance of health research can change the trajectory of rising healthcare costs while sustaining innovation. As thought leaders in comparative effectiveness research (CER) and patient-centered outcomes research (PCOR), we work with a national and international network of patients, patient advocates, clinicians, policymakers, and payers to transform clinical research, provide methodological guidance, and shape health policy. CMTP breaks down traditional silos that too often divide researchers from patients.

Citizenship requirement: U.S. Citizens, Permanent Residents
Centers for Medicare and Medicaid Services

Sherri Giancola, Recruiter
Maria Lazarus, Recruitment Coordinator
7500 Security Boulevard
Baltimore, MD 21244
www.cms.gov/CareersatCMS

The Centers for Medicare and Medicaid Services (CMS), a federal agency within the Department of Health and Human Services, runs the Medicare and Medicaid programs—two national health care programs that benefit about 90 million Americans. Join the team that helps ensure health care security for millions of Americans! CMS works in partnership with the entire health care community to improve quality and efficiency in an evolving health care system and provides leadership in the broader health care marketplace. Our effectiveness depends on the capabilities of a dedicated, professional staff that is committed to supporting these objectives.

Citizenship requirement: U.S. citizens

Center for Promotion of Child Development through Primary Care, Inc.

Raymond Sturner, MD, Director
6017 Altamont Place
Baltimore, MD 21210
www.CHADIS.com

The Center for Promotion of Child Development through Primary Care is seeking applications for a Research Associate position to begin soon. The Center is a nonprofit, but the position will involve working with our for-profit subsidiary, Total Child Health, which is a for-profit company that has been the recipient of a number of SBIR awards from NIMH, NHLB, and CDC. Both organizations are dedicated to helping primary care pediatricians identify, assess and treat health and developmental, behavioral and socio-emotional difficulties in children through the use of an interactive, web-based program called CHADIS (Child Health and Development Interactive System).

Citizenship requirement: U.S. citizens

Center for Surgery and Public Health at Brigham and Women’s Hospital

Dr. Adil Haider, Kessler Director (JHSPH Alumnus)
Anju Ranjit, Postdoctoral Fellow (JHSPH Alumna)
1620 Tremont Street, Suite 4-020
Boston, MA 02120
www.brighamandwomens.org/Research/labs/
CenterforSurgeryandPublicHealth

The Center for Surgery and Public Health (CSPH) at Brigham and Women’s Hospital is a joint initiative of Harvard Medical School (HMS) and the Harvard T.H. Chan School of Public Health. CSPH’s mission is to advance the science of surgical care delivery by studying effectiveness, equity, and value at the health system and population levels, to inform policy, and to provide support for faculty and trainees committed to excellence in surgical health services research (HSR). CSPH’s expertise in HSR also informs its work in addressing the burden of surgical disease in lower and middle income countries and resource-poor settings.

Citizenship requirements: interviews regardless of status
Research Associate

The Center for Promotion of Child Development through Primary Care, Inc. in Baltimore, Maryland is seeking applications for a Research Associate position to begin soon. The Center is a nonprofit, but the position will involve working with our for profit subsidiary, Total Child Health is a for-profit company that has been the recipient of a number of SBIR awards from NIMH, NHLB, and CDC. Both organizations are dedicated to helping primary care pediatricians identify, assess and treat health and developmental, behavioral and socio-emotional difficulties in children through the use of an interactive, web-based program called CHADIS (Child Health and Development Interactive System. See www.CHADIS.com). This constitutes a remarkable opportunity for public health-level research as well as innovations that can be immediately disseminated nationally.

The Research Associate will be primarily involved in an ongoing project focused on improving autism screening for 18-month-olds. The Research Associate would provide leadership for the project but will not be required to conduct the assessments. This individual will also be involved in other ongoing research as needed, such as research aimed at helping pediatricians follow guidelines for treating ADHD and a project for improving treatment of children with asthma by improving adherence.

The best qualified individual would have a MPH or Ph.D. in psychology or other related field or be ABD with time to devote to this position. Additionally, experience in patient recruitment, project coordination, and data management is essential. Grant-writing experience would be helpful but not required. Opportunities exist for manuscript preparation and presentation at industry-related conferences. Interested individuals must possess a high degree of organization, be able to work independently and demonstrate excellent oral and written communication skills.

Applicants should send a curriculum vitae to Raymond Sturner, MD at rsturner@childhealthcare.org. Review of applications will begin immediately.
Children’s Hospital of Philadelphia

Rachel Freedman, Clinical Data Analyst (JHSPH Alumna)
3400 Civic Center Boulevard
Philadelphia, PA 19104
www.chop.edu

Since 1855, The Children’s Hospital of Philadelphia (CHOP) has been the birthplace of many dramatic firsts in pediatric medicine. As the nation’s first hospital devoted exclusively to caring for children, CHOP has fostered medical discoveries and innovations that have improved pediatric healthcare and saved the lives of countless children.

Today, that same spirit of care and innovation continues. The Hospital now employs more than 10,000 people in more than 50 locations across Pennsylvania and New Jersey, all of whom subscribe to one very important idea: everyone makes a difference.

Citizenship requirements: interviews regardless of status

Clinton Health Access Initiative (CHAI)

Sydney Leroy, Global Recruiter
Pete Yelacic, Global Recruiter
383 Dorchester Avenue
Boston, MA 02127
www.clintonhealthaccess.org

The Clinton Health Access Initiative (CHAI) is a global health organization committed to strengthening integrated health systems in the developing world and expanding access to care and treatment for HIV/AIDS, malaria and tuberculosis. Established in 2002 by President Clinton as the Clinton HIV/AIDS Initiative, CHAI initially focused on addressing the limited access to HIV/AIDS treatment faced by developing countries, where more than 90 percent of individuals living with HIV/AIDS reside. CHAI is a trusted adviser to governments, helping them transform the way they provide health care to their people.

Do More Than Make a Great Career Move ... Make a Difference

Joining HJF is more than just a smart career move. It signifies your commitment to improving the health and quality of life of the nation’s troops and the world’s citizens. Whether in our U.S. headquarters or one of more than 100 locations worldwide, you will work with leading researchers to solve the toughest challenges facing military medicine.

Visit us at www.hjf.org/careers

An Equal Opportunity Employer

The National Institute on Minority Health and Health Disparities (NIMHD), NIH awarded CTIS, Inc. a US4 Cooperative Agreement to study policy in relation to health disparities. This grant was awarded over a period of five years to build a Transdisciplinary Coordination Center (TCC) as defined by The Health Policy Research Consortium (HPRC) Program. The HPRC, as a NIMH-funded project, will establish TCCs that draw upon regional coalitions of academic institutions, community organizations, providers, and government to focus on priority research.

We are offering some meaningful career opportunities for professionals who want to make a difference in the community. We are seeking qualified candidates in our Prince George’s County office with experience in Health Disparities, Policy Research, and Community Health. Candidates must have the minimum degree required, listed in each position, with major course work in public health, social work, health administration, health sciences, etc.

Community Outreach Specialist
The Community Outreach Specialist will work closely with the senior peer group to raise awareness and promote the organization in the community. We are currently recruiting for 3 Community Outreach Specialists. Candidates must have a Bachelor’s degree. Specialty areas that we are recruiting for are Latino Outreach (must be bilingual in Spanish), Geriatric Outreach (2 years’ experience working with the Geriatric Community) and Men’s Health Outreach (2 years’ experience specializing in Men’s Health).

Health Policy Analyst
The Health Policy Analyst will help raise awareness in the community as well as assist with policy research and education outreach activities. Candidates must have Bachelor’s degree and should have at least 2 years of working experience in the Health Policy field.

Project Support Professional
The Project Support Professional will provide high-level administrative support by conducting research, preparing statistical reports, handle information requests, and perform other administrative functions. Candidates should have a Bachelor’s degree, two years working experience in the area of community health and experience in supporting Government contracts and/or Grants.

Social and Municipal Services Analyst
The Social and Municipal Services Analyst will research the current social and municipal policies and programs available to community residents as well as raise awareness of residents about issues in the community related to health, programs and health policy. Candidates should have a Bachelor’s degree, excellent research and analytical skills, and familiarity with local jurisdictions and municipalities.

Sr. Health Writer
The Sr. Health Writer will perform research and prepare documents for publication, talking points and related materials for the program. Candidates must have a Master’s degree and at least five to ten years of working experience in the area of health disparities, health policy intervention or related fields. Writing samples will be required.

For full job descriptions and to apply please visit our website at http://hprc.info/. We do not accept applications via email.

We obtain over 170,000 charts (more than 100K in oncology alone) and conduct over 1,000 survey projects annually, as well as numerous observational cohort studies through our unparalleled local office network in 84 countries with over 16,000 employees. We not only offer our data assets but also an accomplished scientific bench that conducts global research and manages all operational and compliance aspects flawlessly. We typically deliver data assets within an industry best 90 days of starting most patient / physician surveys or medical chart projects, with full electronic data capture, ready for analysis.

Research Fellow - Evidence Generation, Ipsos Healthcare
Ipsos Evidence Generation, Value & Access (EVA) Portfolio
Washington, DC

Ipsos is an innovative, entrepreneurial, client-focused organization, providing research services to clients on a global basis. Ipsos is one of the top-3 research services organizations in the world with offices in over 84 countries and with over 16,000 employees. We set ourselves high standards and aim to work collaboratively in partnership with our teams in order to service our clients most effectively.

The Research Fellow, Evidence Generation at Ipsos is will provide training and hands-on experience in a broad-range of epidemiology, health economics and outcomes research (HEOR), biostatistics and/or health services research. This one-year program will allow the fellow to gain proficiency in research designs and methodologies as it pertains to the fields of epidemiology, HEOR and Health Services Research from the perspective of pharmaceutical industry, academic research and governmental organizations. The fellow will gain in-depth knowledge of global healthcare systems and stakeholder needs for real world evidence. The successful candidate will be given an opportunity to participate in the execution of scientific research initiatives globally (e.g., designing studies, developing/implementing research protocols), developing tools/questionnaires, analyzing data and communicating results to relevant stakeholders. This may include developing/presenting abstracts at scientific meetings and preparing manuscripts for peer reviewed scientific journals. We seek candidates having a Ph.D or Master’s degree with a focus in epidemiology, biostatistics, health economics, health services research or public health. Knowledge of observational study designs, data analytic skills, project management skills, technical writing and communication skills are essential. In addition it would be desirable to have experience with handling large data sources (e.g., administrative claims data, NHANES, SEER data) and experience with scientific presentations and publication in peer reviewed journals, with 1-2 years of prior research experience.

Ipsos Healthcare is enjoying the next chapter of expansion and we need research / consulting team members at all levels. If you are interested in exploring Ipsos, please submit your curriculum vitae and a cover letter, including a statement of your research interests, academic qualifications and past research experience (if any) to siva.narayanan@ipsos.com or michael.chance@ipsos.com.

Ipsos is an Equal Opportunity Employer.
Jhpiego, an affiliate of Johns Hopkins University

Stephanie Shaw, Global Human Resources Coordinator
1615 Thames Street
Baltimore, MD 21231
www.jhpiego.org

Jhpiego is an international nonprofit health organization affiliated with The Johns Hopkins University. For 40+ years and in more than 150 countries, Jhpiego has worked to prevent the needless deaths of women and their families. Jhpiego works with health experts, governments and community leaders to provide high-quality health care for their people. Jhpiego develops strategies to help countries care for themselves by training competent health care workers, strengthening health systems and improving delivery of care. Jhpiego designs innovative, effective and low-cost health care solutions to ensure a level of care for women and their families. These practical, evidence-based interventions are breaking down barriers to high-quality health care for the world’s most vulnerable populations.

6740 Alexander Bell Drive
Washington, MD 21046
http://carey.jhu.edu

Timid doesn’t play well here. Since its founding in 1876 as the first research university in the United States, Johns Hopkins has been proving that risk is worth taking when attacking the most vexing problems of society.

We believe that business, by embracing the bigger picture, has the power to change the world in a positive way. We don’t educate business men and business women; we educate humanistic business leaders and entrepreneurs who can transform business and in the process help our society thrive. A thriving society, after all, is the best setting in which to do business and benefit the investor. Business should be a solution to society’s challenges, not their cause.

Business success is not an end unto itself. It should be the means for building a more successful society.

Research Data Analyst

General Summary:
The Research Data Analyst will work in conjunction with and in support of the epidemiologists, biostatisticians, and data management staff at the Johns Hopkins Surgery Center for Outcomes Research, as well as faculty and post-doctoral fellows across the Department of Surgery.

Duties and Responsibilities:
Primary duties will include data analysis and reporting, and manuscript preparation. Additional duties may include work on study design, power and sample-size calculations, server management and preparation of analysis data sets for other analysts. Other duties will be defined.

Education:
A Master’s degree in biostatistics, epidemiology, or related quantitative field is required (MPH with substantial training in epidemiology and biostatistics is acceptable).

Experience:
At least one year of directly related work experience subsequent to earning the Master’s degree. Substantial biostatistical experience including the use of techniques such as regression modeling and survival analysis is required; experience with longitudinal data analysis and multi-level modeling is preferred.

Special Knowledge, Skills, and Abilities:
Experience with both statistical and programming features of analytical software such as Stata, SAS, or R required; Stata preferred.

IF INTERESTED: Please respond via e-mail (including C.V.) to:

The National Cancer Institute (NCI) Cancer Prevention Fellowship Program (CPFP) is looking for future leaders in the fields of cancer prevention and control. As part of the program, we offer training toward an MPH degree at an accredited university during the first year, followed by mentored research with investigators at the NCI. Outstanding opportunities for cutting-edge research in the basic, quantitative, social and behavioral sciences, and in clinical cancer prevention have been the hallmarks of the CPFP since its inception in 1987. Furthermore, a partnership between the NCI and FDA provides opportunities for prevention research in drugs, biologics, and medical devices. Other educational opportunities are provided throughout the fellowship to complement the research training.
