NAVY MEDICINE

• More than 4,300 physicians, 1,200 dentists and 3,900 nurses provide world-class, hands-on care. More than 2,600 administrative, research and clinical specialists offer vital support in labs and research facilities in the U.S. and around the world. No matter their roles or locations, all are doing what they love for the sake of country and common good.
The world of Navy Health Care is a vast caregiving network, supporting the diverse needs of service members and their families, and spreading goodwill and good health to people in need at home and abroad. At the same time, it is accomplished professionals who set the highest standards of excellence in their respective healthcare careers, in any of four Corps units:

- Medical Corps (physicians)
- Nurse Corps
- Dental Corps
- Medical Service Corps
NAVY MEDICAL SERVICE CORPS

HEALTHCARE SCIENCES
Take your enthusiasm for science and research, and use it to help others around the world. The Navy Medical Service Corps can take you beyond the cutting edge in more than 11 research specialties, from aerospace physiology to microbiology and more. Work with unrivaled support and funding, utilizing technology the private sector may not even know about.

HEALTHCARE ADMINISTRATION
Take your ability to manage complex systems and put it to use for incredible causes: ensuring that systems are in place to maintain the health of Navy and Marine service members and their families. Then contribute to humanitarian relief efforts around the world, managing projects that are as exciting as they are varied.

CLINICAL CARE PROVIDERS
Whether it’s caring for infants or the elderly or treating various conditions that affect the human body, the 10 specialties in Navy Clinical Care are similar to the private sector. But Navy opportunities include access to cutting-edge technology, experience on a whole new level and impressive rewards for making a difference in the world.
NAVY MEDICAL SERVICE CORPS

HEALTHCARE SCIENCES
- MICROBIOLOGY
- BIOCHEMISTRY

More on Benefits

• Utilize the latest techniques and technology in state-of-the-art facilities, such as a national naval hospital
• Collaborate with skilled, dedicated colleagues using unrivaled resources
• Have the opportunity to support medical relief and education efforts around the globe
• Attend Officer Development School instead of Boot Camp
• Take on a leadership role among leaders, giving you unrivaled management experience
• Few occupations will earn more trust and respect than those related to health care. And in the Navy, your nation’s admiration is a validation you’ll experience on a whole new level.
Educational Opportunities

• Wherever you are in your professional career, the Navy can help ease your financial burdens and advance your career with generous scholarships, financial assistance and continuing education programs.

• If you’re a student, you can concentrate on your education or training with no military/training obligation until after your program is completed.

• Depending on where you are in your education or career, you may be eligible for one of these programs:
  – Navy Health Professions Scholarship Program (HPSP) – Receive tuition coverage plus a monthly stipend and possibly even a sign-on bonus.
  – Navy Health Services Collegiate Program (HSCP) – Receive a monthly salary and housing allowance while finishing your degree.
  – Navy Health Professions Loan Repayment Program (HPLRP) – Receive funds to help repay your graduate school loans.
