PROFILE

Master of Science student studying epidemiology with additional training in humanitarian assistance. Public health researcher with strong skill sets on program management and implementation of resources. Fluent in French and conversational in German. Extensive experience with Stata and SAS.

EDUCATION

Master of Science (ScM) in Epidemiology Expected May 2019
 Johns Hopkins Bloomberg School of Public Health, Baltimore, MD

Certificate in Humanitarian Assistance May 2019
 Johns Hopkins Bloomberg School of Public Health, Baltimore, MD

Bachelor of Arts (BA) in Anthropology May 2016
 State University, Eastham, MA

Tip: Used to demonstrate “skills” learned in the classroom. More descriptive than just listing relevant coursework under degree.

PUBLIC HEALTH TRAINING

Johns Hopkins Bloomberg School of Public Health, Baltimore, MD Aug. 2018 – Present

Principles of Epidemiology (Fall 2018)

- Designed studies using basic epidemiologic methods
- Identified the place of epidemiology in preventive medicine and disease investigation
- Reviewed papers and assess the validity of their design and their inferences

Social Epidemiology (Fall 2018)

- Identified and described four distinct core areas of research
- Applied concepts, theories and methods from the field of social epidemiology to a research problem

INTERNATIONAL EXPERIENCE

- Assisted in the implementation of child-focused mobile medical units to serve 2000+ vulnerable Iraqi refugee children, including the training of school officials, development of operational plans, provision of logistical support, and development and implementation of a monitoring and evaluation system
- Developed and submitted funding and project proposals for both the Jordanian government and international funding agencies such as UNICEF, United Nations Development Programme (UNDP), and the US Bureau of Population, Refugees and Migration
- Identified, compiled and mapped the psychosocial and mental health services available to refugees and vulnerable Jordanians in the Amman area
- Supervised a health assessment study of Iraqi refugees including training interviewers, sample supervision, data management and quality control and analysis of study findings
- Conducted research on the psycho-social and behavioral risk factors associated with poor adherence to highly-active anti-retroviral therapy (HAART) for AIDS in Botswana
- Assisted in providing medical care, primarily malaria, pre-natal and wound care, for the displaced Batwa people in rural southwest Uganda
- Analyzed barriers in villagers rural sub-Saharan Africa face in accessing adequate health care

P. Health, pg. 2

RESEARCH EXPERIENCE

- Identified and enrolled eligible patients and their families at primary care clinic serving primarily low-income families in inner-city Baltimore for a study on how the relationships between health providers and parents of infants affect how well parenting advice is followed
- Administered initial and follow-up surveys to eligible patients in Baltimore
- Monitored patient appointments and clinic attendance
- Compiled and analyzed data on global trade by researching and evaluating sources for two journal articles on double standards in international agricultural trade and the impact of trade liberalization on agricultural productivity in sub-Saharan Africa
- Conducted extensive reviews of the literature on epidemiology and disease surveillance for USAID funded research project
- Assisted with data entry and analysis on study related to establishing new intervention and safety planning program
- Engaged in research site recruitment and participant retention by creating new recruitment materials and outreaching to local health clinics, and hospitals
- Trained in conducting qualitative interviews for research studies by faculty

Tip: Reverse chronological timeline of work
