Graduation: A Special Moment to Remember

CONGRATULATIONS 2014 GRADUATES!

Who we are:
We are Commencement Photos, Inc. established in 1974. CPI has photographed 1.5 million graduates. We have been providing photographs of the diploma conferral, handshake and hooding ceremonies for secondary schools and colleges for over three decades. Commencement Photos, Inc. is proud to have been selected by your school as the official photographer at your commencement ceremony.

What we do:
As a service to the graduates, their families and the school we will be photographing each graduate upon conferral of his or her diploma, using the most experienced photographers in the business. Knowing that this is a once-in-a-lifetime opportunity we know you will want to capture this special moment forever.

How it works:
Approximately 4 weeks before the graduation the graduate's family will receive notification by mail announcing our presence at the graduation. This mailing will include instructions for ordering. Orders may be placed by mail, phone, fax or online. Our office is available by phone or e-mail to answer any last minute questions customers may have. You may also visit our website for more information. www.CommencementPhotos.Com

What the graduate needs to do:
Be very proud of this accomplishment and show it! This is a milestone in your life and we want to capture on film the pride and exhilaration of the moment. Our goal is to produce a perfect photograph of the degree conferral.

So please remember to:
Look directly into the eyes of the conferrer and smile.
Be aware of the location of our photographer and your tassel.

This is a very special occasion as it stands for a culmination of years of hard work, sacrifice and dedication, one of the truly important memories of a lifetime to be preserved for posterity.
