Center for Mental Health and Addiction Policy Research  
Department of Health Policy and Management

Post-Doctoral Fellowship Openings  
Positions to begin spring or summer 2019

Applications Due: Open until filled, applications will be reviewed on a rolling basis and those received by December 15, 2018 will receive priority.

We are seeking two Post-doctoral Fellows at the Johns Hopkins Bloomberg School of Public Health (JHBSPH) to work on rapid-cycle evaluation of innovative policy strategies to address the opioid crisis. The initiative will take place in multiple states and involve a variety of strategies focused on prevention, access to treatment, and harm reduction, working with other partner organizations. Post-doctoral fellows will work with an evaluation and modeling team at JHBSPH led by Professor Elizabeth Stuart and Assistant Professor Brendan Saloner. The program anticipates four potential types of activities:

1. process/implementation evaluations
2. secondary data analysis (of existing surveys and administrative data)
3. primary data collection of high risk populations
4. simulation modeling.

We are interested in individuals with expertise in research methods, mental health and substance use research, and/or health policy research. Successful candidates will also have an interest in working at the interface of research and practice and with a focus on generating rigorous peer-reviewed research products. Individuals hired will have appointments within the Department of Health Policy and Management and will work within other related initiatives at the School, including the Bloomberg American Health Initiative, the Center for Mental Health and Addiction Policy Research, and NIH-funded T32 training programs on Mental Health Services and Systems research and Drug Dependence Epidemiology. Post-doctoral fellows will have the opportunity to participate in limited coursework. For more information about being a post-doctoral fellow at Johns Hopkins Bloomberg School of Public Health see: https://www.jhsph.edu/academics/postdoctoral-training/.

Successful candidates for a post-doctoral fellow position will have completed a PhD or equivalent degree in public health, psychology, sociology, statistics, economics or related fields, with a track record of collaboration and peer-reviewed publications.

To apply, please send the following to the attention of the project Directors, Drs. Brendan Saloner (bsaloner@jhu.edu) and Elizabeth Stuart (estuart@jhu.edu):

- Cover letter, including summary of relevant experience and motivation for applying for the position
- CV
- Names and contact information for 3 references
- Writing sample

The Johns Hopkins University is an equal opportunity/affirmative action employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff, and students. All applicants who share these goals are encouraged to apply.
