Established in 1969, CHSOR is one of the oldest and most productive health services research centers in the U.S. CHSOR conducts multi-disciplinary research on policies and practices, with a special focus on their impact on quality of care and patient-centered outcomes.

31 CORE FACULTY
26 AFFILIATED FACULTY
39 RESEARCH & ADMINISTRATIVE STAFF

SPONSORED RESEARCH

- 93 active funded research grant and contract awards (projects)
- $78,850,000 - direct costs for all projects active at any time in 2016
- $56,108,000 of that sum came from Federal Sources

DIRECT COSTS, ALL SOURCES

- Federal ($56.1 mil, 39 projects)
- PCORI ($14.8 mil, 12 projects)
- Foundations ($2.5 mil, 9 projects)
- Other Private ($2.4 mil, 22 projects)
- Internal JHU ($2.4 mil, 7 projects)
- Maryland State ($0.7 mil, 4 projects)

DIRECT COSTS, FEDERAL SOURCES

- NIH ($44.5 mil, 14 projects)
- DOD ($4.6 mil, 4 projects)
- AHRQ ($4.1 mil, 13 projects)
- DHHS ($1 mil, 2 projects)
- NSF ($0.3 mil, 2 projects)
- HRSA ($0.3 mil, 1 project)
- FDA ($0.3 mil, 1 project)
- VA ($0.2 mil, 1 project)
- CMS ($0.1 mil, 1 project)

These figures include direct costs for the entire time period of the project.

COMMUNITY IMPACT

19 PROJECTS OR ACTIVITIES, INVOLVING 11 FACULTY
focused on the local Baltimore Community:

Reverse Innovation and Community Engagement to Improve Quality of Care and Patient Outcomes (CONNECT)

Johns Hopkins Institute for Clinical and Translational Research, The Community Health Partnership (J-CHIP)

Tumaini (Hope) for Health: A Collaborative Partnership for Community Health

Medical Education Resources Initiative for Teens (MERIT) Health Leadership Academy

Partnering with Patients in Decision Making: Continuing the Conversation at Johns Hopkins

Baltimore Falls Reduction Initiative Engaging Neighborhoods and Data (B’FRIEND)

Maximizing Independence (MIND) at Home

Johns Hopkins Institute for Clinical and Translational Research (ICTR) initiative on involving the community perspective of Baltimore City residents in the development and review of research protocols

225 PUBLICATIONS
authored by CHSOR core faculty appeared in 2016

18,300 CITATIONS
of previously published material throughout 2016

The most influential journals where our faculty published in 2016 were: Journal of General Internal Medicine, Value in Health, Annals of Internal Medicine, Journal for Healthcare Quality, Health Affairs, Medical Care, BMJ Quality & Safety, American Journal of Public Health (AJPH), Journal of the American Medical Informatics Association, Journal of the American Medical Association (JAMA), and New England Journal of Medicine (NEJM).

On average, a CHSOR faculty member has over 6,100 ALL-TIME CITATIONS
an h-index of 29 and an i10-index of 63

In 2016, our faculty individually authored up to 20 publications and were cited up to 3,300 times; the highest individual h-index was 96 and the i10-index was 318

146 PRESENTATIONS
among them, 84 peer-reviewed or invited talks

Our faculty engaged the scientific community at major conferences held by: AcademyHealth, AARP Public Policy Institute, American Society of Health Economists, American Society of Clinical Oncology, International Society for Pharmacoconomics and Outcomes Research (ISPOR), Orthopaedic Trauma Association, Society of General Internal Medicine (SGIM), Society for Medical Decision Making, and TEDx.

21 FEATURED INTERVIEWS

12 AWARDS & HONORS
Suchi Saria, Ph.D. was recognized as one of the ‘Brilliant Ten’ by Popular Science magazine and received a DARPA Young Faculty Award.

William Padula, Ph.D. received a research award from the European Congress of ISPOR.

LinkedIn Group of
34 GRADUATES

A 2016 graduate of HSR&P, advised by CHSOR faculty, is now a Research Public Health Analyst at RTI International.

47 DOCTORAL STUDENTS ADVISED
including those in the Department’s Health Services Research and Policy (HSR&P) concentration,
111 masters and other students, and 61 capstone projects

10 HSR&P STUDENTS
including 5 FIRST YEAR STUDENTS were supported in 2016 by an AHRQ T32 NRSA training grant program (the CHSOR Director is principal investigator). The Ph.D. program prepares health services researchers in patient safety, quality of care, financing and organization of health services, and reducing disparities.

40 WEEKLY SCHOLARLY SEMINARS HELD
featuring research-in-progress, complex established outcomes-oriented projects, and translation and implementation of health services research into policy. In 2016, among the speakers were the Distinguished Chair at RAND Corporation, the VP at Premier, Inc., and the Associate Director-General at the Ministry of Health of Israel.

39 COURSES TAUGHT
both in person and online, nationally and globally, in the schools of Public Health and Medicine, Berman Institute of Bioethics, Whiting School of Engineering, and Zanvyl Krieger School of Arts & Sciences in 2016

7 of our faculty have been recognized by students for their teaching excellence in 8 School of Public Health courses. The school’s faculty recognized 2 CHSOR members with an Advising, Mentoring, Teaching Recognition Award and the Ernest Lyman Stebbins Medal for outstanding contributions to the school’s teaching programs.

CQSPOR - certificate program in Quality, Patient Safety and Outcomes Research
The program provides a hands-on, supervised experience in research or practice for students, faculty and staff of the Johns Hopkins Medical Institutions. In 2016, 8 students matriculated into the program, and 11 graduated.
