National Center for Injury Prevention & Control, CDC

2015 Summer Internship Program

The Johns Hopkins Center for Injury Research and Policy (JHICRP) is pleased to announce that it will provide support for one JHSPH Masters or Doctoral full time or part time student to participate in a summer internship opportunity with the Centers for Disease Control and Prevention’s National Center for Injury Prevention and Control (NCIPC) in Atlanta, GA. The student will be matched with a mentor at the NCIPC based on his or her area of interest. The 8-week internship experience includes:

- Working on a research project that the student will report on at the end of the summer
- Meetings with the NCIPC leaders
- Lunch and Learn sessions
- Resume writing and interviewing skill building sessions with other CDC interns

A stipend and travel expenses (up to $4,000) will be provided by JHICRP to one student who will be selected through a competitive application process. After completing the internship, the intern will be expected to give a presentation on the internship experience to JHICRP faculty, staff, and students. Current and graduating students are eligible to apply.

If you are interested in applying for this Internship Program, please submit the following information to Ms. Edith Jones at ejones10@jhu.edu by 5pm on Wednesday, March 4, 2015:

- Your CV or resume
- A written response of no more than 1,500 words that addresses the following:
  - Do you have prior training in injury and violence prevention? If yes, please describe your training (e.g., names of courses taken).
  - What are your research interest(s) in the field of injury and violence, and what do you hope to accomplish during this summer internship?
  - Please describe your relevant experience (research and/or practice) in injury, violence, or another public health-related field.
  - How does this summer internship fit with your professional goals?

Applications will be reviewed by a Committee of faculty from the JHICRP. The recipient will be notified via email by March 16, 2015.
