The Occupational and Environmental Health Nursing (OEHN) Program is a part of the Johns Hopkins Education and Research Center (ERC) sponsored by the National Institute for Occupational Safety and Health (NIOSH). This center provides some funding opportunities to exceptional candidates.

**Key OEHN Program Features**

- **Interdisciplinary focus**
  Learn from and work closely with occupational & environmental:
  - hygienists
  - medicine physicians
  - injury epidemiologists
  - toxicologists

- **Field experiences**
  Work-site evaluations, community assessments, field data collection opportunities, internships with government agencies.

- Participate in **faculty research** projects.

- Optional **teaching opportunities** in graduate courses and continuing education courses.

- **Occupational & environmental health seminars** presented by students and faculty:
  - Research in Progress
  - Journal Club
  - Grand Rounds
