

JOHNS HOPKINS  
BLOOMBERG  
SCHOOL *of* PUBLIC HEALTH

Protecting Health, Saving Lives—*Millions at a Time*

# Researchers and Academics:

- What are the gaps in research that still need to be addressed?
- How can agencies such as DOT, NIOSH and OSHA do to promote the reduction of distracted driving?

## Policy Makers:

- What evidence do you need to strengthen standards based on sectors or consensus standards or the laws or policies within your area of responsibility?
- What can agencies such as DOT, NIOSH and OSHA do to promote the reduction of distracted driving?

# Labor Organizations:

- How can your membership work more effectively to reduce distracted driving?
- What can agencies such as DOT, NIOSH and OSHA do to promote the reduction of distracted driving?

# Employers without Distracted Driving Policies:

- What do you need to convince top management that these policies will protect your employees *and* make good business sense?
- What are the challenges you face in implementing programs?
- What can agencies such as DOT, NIOSH and OSHA do to promote the reduction of distracted driving?

# Employers with Distracted Driving Policies:

- How can your experience be communicated more widely within the business community?
- What can agencies such as DOT, NIOSH and OSHA do to promote the reduction of distracted driving?
