Lerner Center for Public Health Promotion
2018-2019 Federal Work Study Position

Posting ID: HBS-A001
Employer/Department: Lerner Center for Public Health Promotion
Position Title: Graduate Research Assistant
Supervisor: Meghan Ames, Anam Bhatti and Sara Benjamin Neelon
Salary: $20/hr
Schedule: 10-19 hr/wk
Employment Period: 9/4/18-5/31/19
Date Posted: 8/23/18

Purpose of Job:
The Lerner Center for Public Health Promotion is hiring students to assist with a variety of Center projects and activities, including: development of regular Center communications; contribution to Monday-related programming implementation and evaluation; assistance on message testing research studies; and development of materials for massive open online courses. The research assistants will work closely with the Community Program Manager and the Healthy Mondays Coordinator to achieve these goals.

Job Qualifications:
Professionalism and proficiency in MS Office Suite is essential. Familiarity with qualitative/quantitative research methods, health communications, and/or curriculum development is a plus.

Description of Duties:
The Research Assistant may be assigned to any of the following duties: develop and disseminate regular Center communications; assist with qualitative/quantitative research including conducting in-depth interviews, data entry, or data analysis; provide content development and project management for the implementation of a massive open online course.

Applicant Instructions:
To apply for this position, send an email with a resume to Meghan Ames at meghan.ames@jhu.edu.
Lerner Center for Public Health Promotion
2018-2019 Federal Work Study Position

Posting ID: HBS-G001
Employer/Department: Lerner Center for Public Health Promotion
Position Title: Graduate Research Assistant
Supervisor: Sarah Gonzalez-Nahm and Sara Benjamin Neelon
Salary: $20/hr
Schedule: 10-19 hr/wk
Employment Period: 9/4/18-5/31/19
Date Posted: 8/24/18

Purpose of Job:
The Lerner Center for Public Health Promotion is hiring students to assist with data collection and management for a study assessing the distribution of Baby-Friendly Hospital Initiative facilities. The research assistants will spend most of their time collecting and managing survey data from hospitals across the US. Experience using REDCap is preferred, but not required. The research assistants will work closely with the Deputy Director and the Director of the Lerner Center for Public Health Promotion to achieve these goals.

Job Qualifications:
Attention to detail and ability to work collaboratively on a team is required; data collection experience is a plus; experience with literature reviews and scientific writing helpful. A background in quantitative data management is strongly preferred.

Description of Duties:
Collect survey data from hospital contacts using REDCap; clean and manage collected survey data; other study-specific duties as assigned.

Applicant Instructions:
To apply for this position, send an email with a resume to Sarah Gonzalez-Nahm at sarah.nahm@jhu.edu.
Lerner Center for Public Health Promotion
2018-2019 Federal Work Study Position

Posting ID: HBS-Z002
Employer/Department: Lerner Center for Public Health Promotion
Position Title: Graduate Research Assistant
Supervisor: Daniel Zaltz and Sara Benjamin Neelon
Salary: $20/hr
Schedule: 10-19 hr/wk
Employment Period: 9/4/18-5/31/19
Date Posted: 8/27/18

Purpose of Job:
The Lerner Center for Public Health Promotion is hiring students to assist with data entry for several studies related to child nutrition in both US and international settings. The research assistants will spend most of their time inputting dietary observation data into the Nutrition Database for Scientific Research (NDSR). Previous experience with NDSR is preferred but not required. The research assistants will work closely with the Research Program Manager and the Director of the Lerner Center for Public Health Promotion to achieve these goals.

Job Qualifications:
Attention to detail and ability to work collaboratively on a team is required; data entry experience is a plus; experience with literature reviews and scientific writing helpful. A background in nutrition/dietary assessment is strongly preferred.

Description of Duties:
Review data collection forms; input dietary data into research database under training/supervision of the Research Program Manager; other study-specific duties as assigned.

Applicant Instructions:
To apply for this position, send an email with a resume to Daniel Zaltz at dzaltz1@jhu.edu.
