Lerner Center for Public Health Promotion  
Johns Hopkins Bloomberg School of Public Health  
2019-2020 Graduate Research Assistant Position

Employer/Department: Lerner Center for Public Health Promotion, Department of Health, Behavior and Society
Position Title: Graduate Research Assistant
Supervisor: Sara Benjamin Neelon
Salary: $20/hr (higher with additional experience)
Schedule: 10-19 hr/wk
Employment Period: 8/26/19-5/31/20
Date Posted: 9/3/19

Purpose of Job:
The Lerner Center for Public Health Promotion is hiring graduate students to assist with a research study assessing the nutritional quality of restaurant meals for children in Baltimore and New York City. The graduate students will assist with all aspects of the study, including data collection, data entry, and data cleaning. Graduate students will travel in pairs to restaurants throughout Baltimore and New York City (schedule permitting) to collect copies of children’s menus and purchase a meal at the restaurant – all travel and meal expenses paid! We offer a flexible schedule and compensation for study-related activities.

Job Qualifications:
Professionalism, organization, and attention to detail. Previous experience with data collection is preferred. An interest in nutrition is a plus.

Description of Duties:
The Graduate Research Assistant will:
- Assist with design of data collection tools
- Assist with data collection activities in restaurants throughout Baltimore
- Assist with management and analysis of collected data
- Participate in training courses as required and/or needed.
- Assist literature searches as needed using PubMed and other literature databases.
- Perform other duties as required.

Applicant Instructions:
To apply for this position, send an email with a resume to Sara Benjamin Neelon at 
sara.neelon@jhu.edu
Purpose of Job:
The Lerner Center for Public Health Promotion is hiring a student to assist with the development of a massive open online course (MOOC) about building healthy communities. The course will target public health and other professionals working in a variety of sectors, who wish to learn about strategies and develop skills to promote healthy communities. The course goal is to equip learners with the tools needed to build meaningful partnerships and implement sustainable environmental and programmatic efforts to promote a healthy body weight throughout their community. The research assistant will work closely with the Community Program Manager to contribute to this project.

Job Qualifications:
Professionalism and proficiency in MS Office Suite is essential. Familiarity with curriculum development, online learning, basic video production, adobe creative suite, and communications and marketing is a plus.

Description of Duties:
The Research Assistant may be assigned to any of the following duties: assist with curriculum development; develop course learning materials, such as discussion board prompts, written articles, video scripts, lectures, and assignments; contribute to evaluation metrics and activities; promote and market the course; and review literature.
