

Field Studies in Educational Foundations

Building Resilient Kids

On Line Course for School Personnel Begins Feb. 9

Register now for the *first online 3 credit graduate course* about how to help students from military families.

This course addresses the needs of **all students** but especially **students from military families** who face special challenges of mobility and parental deployments. Because you are uniquely positioned to support these students, we offer practical strategies you can implement immediately. This 10 week course is taught by psychologist, **Dr. Lynne Michael Blum** of Johns Hopkins University Military Child Initiative. It is now offered at the University of Hawaii Manoa Outreach College.

By the end of this course you will learn strategies to increase:

- **Student problem solving skills**
- **Student social emotional learning skills**
- **School connectedness and engagement**
- **Parent/military community partnerships**
- **Skills to help students overcome their challenges**

The course is engaging using learning games, case studies, practical strategies and ideas. It features best practice programs across the U.S. You'll see videos of students, parents, teachers, counselors and administrators as they tell their special stories. Leading researchers give video lectures. You'll participate in chat rooms with educators across the country.

Here's how to register

- **Go to http://www.outreach.hawaii.edu/myuh/quick_guide.asp The course is offered in the University of Hawaii-Manoa Outreach College, Educational Foundations, Spring, 2009 Extension Program. *Note: The University of Hawaii title for the course is "Field Studies in Educational Foundations".
