With articles focused on MSM from Malawi, Kenya, South Africa, Swaziland, Cameroon, Senegal, and beyond:

- HIV among men who have sex with men in Malawi: elucidating HIV prevalence and correlates of infection to inform HIV prevention
- A cross-sectional assessment of the burden of HIV and associated individual- and structural-level characteristics among men who have sex with men in Swaziland
- Experiences of Kenyan healthcare workers providing services to men who have sex with men: qualitative findings from a sensitivity training programme
- MSM sensitivity training reduces homophobia and increases knowledge among Kenyan healthcare providers in Coastal Kenya
- HIV prevalence and factors associated with HIV infection among men who have sex with men in Cameroon
- Outcomes of a community-based HIV-prevention pilot programme for township men who have sex with men in Cape Town, South Africa
- A pilot cohort study to assess the feasibility of HIV prevention science research among men who have sex with men in Dakar, Senegal
- “They are human beings, they are Swazi”: intersecting stigmas and the positive health, dignity and prevention needs of HIV-positive men who have sex with men in Swaziland
- Epidemiology of HIV among female sex workers, their clients, men who have sex with men and people who inject drugs in West and Central Africa
