Media Submission Tips: Graduation Photo

POSITION
Position the camera at eye level or above, you never shoot yourself from below. Consider asking a friend/family member to take the photo (if safe to do so). Frame yourself in the photo properly:

![Too far](image1)
![Just right](image2)
![Too close](image3)

LIGHTING
Use natural light if possible. Avoid harsh shadows, use a second light source to even the lighting. Avoid distracting backgrounds.
Media Submission Tips: Video

**DON'T:** Leave too much empty space above your head.

**DO:** Position your face in the upper half of the frame.

**DON'T:** Use low camera angles.

**DO:** Safely align your eyeline to the camera.

**DON'T:** Sit in front of a bright light source.

**DO:** Properly light yourself. Avoid harsh shadows.
